

# Thirteenth Floor Opening

## Mudhoney

If I try, I could fly  
Right through that window  
If I try, I could fly  
Right through that window  
Just can't find my way to the door When I land, I know  
I will not be injured  
When I land, I know  
I will not be injured  
There's no way that  
I can hurt any more Got an open line  
Up on the thirteenth floor  
Got an open heart  
Up on the thirteenth floor  
Found an open window  
Up on the thirteenth floor  
Everything's wide open  
Oh, on the thirteenth floor
