

Shadowfaux

Empires

I think I'm ready this time
To go with it
I've got a little more mind to kill
I'm ready now
And when my heart is to fast
Through a moment of pity
In a crushed up city
And I can't help, can't help
I can't help myself
I can't help, I can't help myself
I can't help myself when I see you
I used to know how to forget
All of the horrible things on my mind
Didn't know I could be so bold
And I can't help, can't help
I can't help myself
I can't help, I can't help myself
I can't help myself when I see you
And I know I can't help
I can't help myself
I can't help, I can't help myself
I can't help myself when I'm with you
Oh ah oh ah oh ah oh
And I know I can't help
I can't help myself
I can't help, I can't help myself
I can't help myself when I'm with you
