

# Private Revolution

## World Party

If you want a revolution, baby  
There is nothing like your own  
You don't have to do all those burning books  
Revolutionize at home Someone's been hiding the pieces  
Someone been burning down the trees  
So we need your revolution, baby  
There's a planet to set free We are the revolution, baby  
Come to take you home  
If you say you want a revolution, baby  
There is nothing like your own We are the revolution, baby  
Come to set you free  
After you revolution, baby  
There is nothing you can't be Man's been killing the tigers  
Turn the green fields into sand  
And their saying how much they respect our work  
Oh, god and his final hand But the world spins on regardless  
Which is lucky for you and me  
'Cause of all the places in the years right from here  
This is the only place to be We are the revolution  
Come to take you home  
If you say you want a revolution, baby  
There is nothing like your own We are the revolution, baby  
Come to set you free  
After you revolution, baby  
There is nothing you can't be Don't need a red light  
Don't need a blue light  
Don't need a yellow light Take off from the green light now  
Take off from the green light now  
Take off from the green light now We got a revolution, baby  
Come to take you home  
If you say you want a revolution  
There is nothing like your own We are the revolution, baby  
We've come to set you free  
After you revolution, baby  
There is nothing you can't be
