Before Angels Fall

Short Stack

I'm lookin for the one it seemed like such an easy plan
I found out you're far from but I still wanna be your man
(If I can)
Would you think I'd have a chance
From the start
Every time you take my hand
You take my heart
And I think I'm dying because you said:
"Take my breath away"
I'll lay you down tonight
Steal my heart away once more
This pose will beat out "fire"
One kiss before angels fall
And now I've fallen too far, one kiss before angels fall
I knew this had to be cos I know that you want me for me
You swear I've got rad hair,
but nothing can compare
To the way I feel
Would you think I'd have a chance
From the start
Everytime you take my hand
You take my heart

And I think I'm dying because you said
"Take my breath away"
I'll lay you down tonight
Steal my heart away once more
This pose will be on fire
One kiss before angles fall
I'll lay you down tonight
Steal my heart away once more
This pose will be on fire
One kiss before angles fall
And now I've fallen to far, one kiss before angles fall down
I'll lay you down tonight
Steal my heart away once more
This pose will be one fire
One kiss before angles fall
I'll lay you down tonight

Steal my heart away once more
This pose will be on fire
One kiss before angles fall
I'll lay you down tonight
I'll lay you down tonight
I'll lay you down tonight yeah
