

Surrender (feat. Connie Britton & Charles Esten)

Nashville Cast

You haunt me when I fall asleep
You are in every breath I breathe
I still hear your footsteps down the hall
And I keep trying to pretend this ache for you is gonna end
But I know better than that now
So baby please

Tell me

Why don't we

Take this time we wasted
And don't hold back let's face it
I need you

And baby you need me
We're all we've been missing

If we could just stop resisting

And give in to what's supposed to be
And I'll surrender to you

If you surrender to me
I hear you whisper in the air at night

You are in every single song I write

And every melody I play
It doesn't matter where I run

I come back to where I'm running from
Your face is everywhere I turn
So baby please

Tell me

Why don't we

Take this time we've wasted
And don't hold back let's face it
I need you

And baby you need me
We're all we've been missing

If we could just stop resisting

And give in to what's supposed to be
And I'll surrender to you
If you surrender to me
I'll surrender to you

If you surrender to me
