Heaven

Neal McCoy

I could climb up to the top of a mountain
An' I could fly a plane as high as it could go
But still I'd be no closer to Heaven, woah
I'll have to wait until it's time to go homeI've stood upon the edge of the Grand Canyon
And yes, it is a miracle to see
But even though it's hard to imagine, woah
There is a place more beautiful to meAnd I thank God that there's a Heaven
A place to go when my days are through
I do not have to go far to get there, not yet
'Cause Heaven is at home with youAn' after all the years that we have been together
I don't have to ask what love is worth
'Cause when I hold you close there is no question, whoa
That Heaven really can be found on earth
