

Trip Along

Tripping Daisy

Sitting on a curved back couch
My mind it rolls reminds me it was so easy
Staring at the Christmas lights
In a box that were once hanging on my tree Proving once again that seasons change
So do we, it's nothing new
Similar to the love you find
While kissing your first kiss, the world was blind Trip along my mindless waveless thoughts they carry on
Trip along my mindless waveless thoughts they carry on The magic potion within my brain
Painted pictures of everything
The cat that barks, the dog that meows
The bird that flies all around Trip along my mindless waveless thoughts they carry on
Trip along my mindless waveless thoughts they carry on Sitting on a curved back couch
My mind it rolls reminds me it was so easy
