Deep Down

Calexico

When numbers matter, more than the heart
Your eyes are hollowed
And stiffness starts to take control
Capsize the soulDeep down you know, it's evil
You've always knownBe a good example, show your new tricks
And while you're out there, they'll make the pitch
To rally the troops and make a huge contribution
To help push this throughDeep down you know, it's evil
You've always known
(Always known)
Always known
(Always known)
(Always known, always)The days here are numbered but your record is clean
Outstretched and waiting on banks that seem
To flow and flow, a rich reward to show
Duty carried out in the fieldDeep down you know, it's evil
You've always known, it's evil
You've always known
(Always known)
Always known
(Always known)Always known
(Always known)
Oh, it's evil
(Always known)
(Always known)Always known
(Always known)
(Always known)
(Always known)
(Always known)
