Downtown

Whitehorse

I'm electrify by the city light
I get off where I need to
And with who I like
I'm a different man
I'm a subway ride
I might be unfamiliar
On a skin like that

I live in downtown
I live in downtown
I live in downtown
And it's killing me

This one worthless drone
Bombs are quiet street
You can dance with the devil
You can shuffle your feet
We can burn it down
We can rest when we're dead
We're a pillow fight
On a concrete bed

I live in downtown
I live in downtown
I live in downtown
And it's killing me

We're a faceless crowd
Yeah we walk here alone
The city streets are empty
Till you make them your own
But hey do I know you?
Have you ever seen me?
Everything's gonna be alright

I live in downtown
I live in downtown
I live in downtown
And it's killing me

I live in downtown
And it's killing me
