

Beating a Dead Horse

Fenix TX

I hate your, can't stand your, holding back
But I want to say much more
Every day gets worse
Can't take this, we made this
Been a long time running out of patience
Watch those evil words Don't slow down, don't go down
You should learn how to take it to the last round
Think of circumstance
Everyone's opinions matter more
Than your words of wisdom
Give it one more chance Now you know this is your life
And it's so beautiful but pitiful, it's typical
And now you know this is your life
And it's so beautiful but pitiful, it's typical
And it's all yours It's not fair, you don't care
Sometimes I wish we never made it here
Don't mean what you say
Use your voice make some noise, it's on the table
So you better make the right choice
Can't have it your way Now you know this is your life
And it's so beautiful but pitiful, it's typical
Now you know this is your life
And it's so beautiful but pitiful, it's typical
And it's all yours Now you know this is your life
And it's so beautiful but pitiful, it's typical
And now you know this is your life
And it's so beautiful but pitiful, it's typical
And it's all yours
