Better with You

Sarah Blasko

I think I've finally found my feet
I hardly recognise
Just who I was without you like I wore a disguise
You could say I've waited for you all this time
I won't deny the change I'm feeling
I cannot hideIt's better with you
We'll make it if we choose
It's better with you
Better with you
Copy, paste, robots, i'm so tired of them
I'm feeling better about this city
In heart and mind
It's like a new adventure with you
My hope's alive
You could say I've waited for you all my life
No, I won't deny that feeling
I cannot lie
It's better with you
We'll make it if we choose
It's better with you
It's hard now to loseIt's better with you
We'll make it if we choose
It's better with you
Better with youLook at what we have now, baby
It's hard to find
Look at what we have
It's getting better all the time
Better all the timeIt's better with you
We'll make it if we choose
It's better with you
It's hard now to lose
It's better with you
We'll make it if we choose
It's better with you
Better with you
It's better with you
It's better with youOh look at what we have
It's getting better all the time
Oh look at what we have

It's getting better all the time
Oh look at what we have
It's getting better all the time
Oh look at what we have
It's getting better all the time
