

I Wait For You (feat. Tiffani Juno)

Crvvcks

[Electronic music]I wait for you!Time it can't wait for no one
I find it my own way
You make it hard for me
Could you make the mind of?
Make it hard for me
Make it mind of
Make it hard for me
Make it mind ofWhy do you keep pushing me away?
And why do you keep begging me to stay?
Why do? I wait for you,
I wait for you to become undone again
And why do you keep pushing me away?
And why do you keep begging me to stay?
Why do? I wait for you,
I wait for you to become undone againLately I've been blown
Further and further away from you
Maybe it's time to wake from this slumber
That I call me
And you (I wait for you)
I've been dreaming
Why do you?
Why do I wait for you?
Just to catch on again
And why do?
(I wait for you)
You make it hard for me
But make it the mind of
Make it hard for me
Make it mind ofWhy do you keep pushing me away?
And why do you keep begging me to stay?
Why do? I wait for you,
I wait for you to become undone again
And why do you keep pushing me away?
And why do you keep begging me to stay?
Why do? I wait for you,
I wait for you to become undone again
