

Crystal Clear

Jaci Velasquez

When I'm a sparrow in a winter
You are a seed I find
When I'm a heart with the splinter
Your hot blood keeps me alive If I could call you a color
You'd be the deepest of blues
If I have my pleasure of anything
You'd be the one that I'd choose Now it's crystal clear I'm falling for you
Now that I can see the mystery's revealed
Now I'm comin' clean
I can feel my fears released
Now it's crystal clear I'm falling for you I'm soft like clay
Your hands they mold me
For you, I would run away
Just to hear you calling out my name Now it's crystal clear I'm falling for you
Now that I can see the mystery's revealed
Now I'm comin' clean
I can feel my fears released
Now it's crystal clear I'm falling for you I'm broken and empty
Without you, I'm blinded
I need you
I need you near me, I need you near me
Ohh ohh
I'm falling Now it's crystal clear I'm falling for you
Now that I can see the mystery's revealed, huh
Now I'm comin' clean
I can feel my fears released
Now it's crystal clear I'm falling for you Please catch me, I'm falling for you
Please catch me, I'm falling for you
Please catch me, I'm falling for you
