

If It Was Cool

Brian Mcknight

I see that look in your eyes, girl
I might cross the room that you're leading me in
I can't deny that I want you
So I make my way up to you
No, I see that ring on your finger
Telling me that I shouldn't linger
It's such a shame a disaster
That it has to be this way
But if it was cool, it would be me and you
Think of all the nasty things we could do
That would be something but only if
It was cool but it ain't though
Tell me would he mind if I kissed you
While he's at home watching ESPN
If I took you home would he miss you
But it don't matter 'cause I don't get down that way, no
If you were mine would you do this to me
While I'm at home watching re-runs of Dragnet
With a bottle of Hennessey
Would you be ashamed when you saw me
And what would you say
But if it was cool, it would be me and you
Think of all the nasty things we could do
That would be something but only if
It was cool but it ain't though
Was so nice to meet you
Now I try to treat you the best I could
Like a true gentleman should
Now I got to leave you keep up there just might see it
I'll be around same bad time, same bad channel
You know the station
If it was cool, it could be me and you
Think of all the nasty things we could do
That would be something but only if
It was cool
If it was cool, if it was cool, if it was cool
That would be something but only if
It was cool but it ain't though
