

Children of the sun

Yves Larock

All the people
go get together and hear me sing
my son my freedom my love
a world of children that cries no more
one race one heart is all in the unity don't fall
apart
live up and don't you give up
(don't you give up)
we are the children of the sun
we are the children of the sun
me said the children of the sun
and if we fight for our rights we become the children
of the sun
together one by one
me said the children of sun.
