# Fuck Me

## Osker

Do what you want, just go home
I'd take advice coming from anyone but you
Don't see how you could say that shit
No matter what, things will always stay the sameWhy I can't think clear with you by my side?
You make me disturbed and I act all uptight
Why I think I could do without the stress?
So why are you here?Why I think you pry too much?
Why I think you hear what your ears are not to hear?
Why I think you need to stay
The fuck away from my friends?Why I can't think clear with you by my side?
You make me disturbed and I act all uptight
Why I think I could do without the stress?
So why are you here? GoWhy I can't think clear with you by my side?
You make me disturbed and I act all uptight
Why I think I could do without the stress?
So why are you here?
