

# Fuck Me

## Osker

Do what you want, just go home  
I'd take advice coming from anyone but you  
Don't see how you could say that shit

No matter what, things will always stay the same  
Why I can't think clear with you by my side?

You make me disturbed and I act all uptight  
Why I think I could do without the stress?

So why are you here? Why I think you pry too much?  
Why I think you hear what your ears are not to hear?  
Why I think you need to stay

The fuck away from my friends? Why I can't think clear with you by my side?

You make me disturbed and I act all uptight  
Why I think I could do without the stress?

So why are you here? Go  
Why I can't think clear with you by my side?  
You make me disturbed and I act all uptight  
Why I think I could do without the stress?

So why are you here?
