

# Embrace Me

## Fragma

You broke my resistance  
And you tore the curtains down  
I hardly seem to miss them  
Since you tossed them to the ground  
And I tried to resist I just cannot exist without your love  
You're offering me assistance  
For a mind that's spinning 'round  
And I try to be strong I just cannot go on without your love

Embrace me - run your fingers through my hair  
Embrace me - let me feel you everywhere  
And when you face me - I see heaven in your smile  
Now that look in your eyes and the sound of your sighs  
Will make my life worthwhile  
Embrace me

Just like a dream that's never ending  
I'm so happy to give in  
There's no need to complain 'cause it's all just in vain without your love  
A broken heart in need of mending  
And a game that both of us will win  
Don't you take it away 'cause I really can't play without your love

Embrace me - run your fingers through my hair  
Embrace me - let me feel you everywhere  
And when you face me - I see heaven in your smile  
Now that look in your eyes and the sound of your sighs  
Will make my life worthwhile  
Embrace me

Make me understand  
Let me hold your hand  
This is how it's planned  
Let me feel you oh  
Everywhere

Embrace me - run your fingers through my hair  
Embrace me - let me feel you everywhere  
And when you face me - I see heaven in your smile  
Now that look in your eyes and the sound of your sighs

Will make my life worthwhile

Embrace me
