Guns Are Good

Genitorturers

Do you like my shiny steel?
Show me yours, I'll show you mine
Let me show you what it can do
Get a little closer let it blow your mind
Lick your lips as you wonder how good it can be
You're standing there looking at me
If you dare
So much sin, so little time
Come a little closer let me strap you mind to a chair
Cause there are no rules and there are no rights
Penitent as you can be
Penitent as you can be
Bow your heads and fall in line
Penitent as you can be
While pushin you to level 3
Ya took a switch as you turn a dirty trick for me
I stuck you and I showed you how to jerk for me in a chair if you dare
Grab your guns and fall in line
Cause there are no rules and there are no rights
Fall in line
Guns are good and guns are great to kill the people that you hate
Lick your lips as you wonder how good it can be
I thought I caught you checkin out my slick Tech 9
You're standing there looking at me
So much steel, so little time
So stare, if you dare
Guns are good
Cause there are no rules and there are no rights
Grab your guns and fall in line
Guns are good and guns are great to kill the people that you hate
