

Politan

Nellie McKay

Santa Maria, can you hear me? I've got no reason to live

They say I've been lucky but it's all relative

Won't you make it easy? I've got to erase all the pain

They say it's behind me but it keeps coming backBut if you knew my love, then you would see my love

Never meant to interfere with all your plans

And if you cannot see, why don't you come for me?

And escape me to the world of PolitanLo que la noche se hace, a la manana parecePoliceman please arrest me,

I'd rather live in a jail

Than have to stay out here where everything fails

Won't you give me something? I'll pay you awfully well

I will reimburse you if you'll just make the dealBut if you knew my love, then you would see my love

Never meant to interfere with all your plans

And if you cannot see why don't you come for me?

And escape me to the world of PolitanYou gotta say, I'm an island in the Pacific

Oh as Miss O'Day would say, the view's terrific

The moral of the story is a doozy, dizzy paradeYou gotta say, I'm an island, oh, you can't fake it

No, if everybody knew the way to make it

The laurel and the glory would be taken, man I'd be made
