

# For What It's Worth

## Barcode

Dont want your interest  
Dont need your worries too  
For what its worth, no less  
Giving up on everything  
Im leaving it all behind  
The crucial sacrifice Bypass, recast  
Go kiss my fucking ass  
Last rites, the final blast Unstable hallowed the  
Restless for evermore  
Withdrawn immunity  
These unreliable bonds This lust for lowest low  
This need for no response  
Let it go  
Back off, my life, my show  
Out of sight, out of mind, let go
