

Fly Away

Teyana Taylor

Boy ya don't need nobody
just me and you
its the truth
Boy ya don't need nobody
just me and you
its the truth
Cuz you that know when
your not around me
oh its my pain
make it special
lets fly away
Follow me to the stars
And the moon make the sky's turn blue
just fly away
im impress bye the things you do
too young but im in love with you
you know you take me on a natural high
Let fly away
Boy ya don't need nobody
just me and you
its the truth
Cuz you that know when
your not around me
oh its my pain
make it special
just fly away
flow with me to internty
density
hey
lets fly away
baby will you come with
you say you will you will
lets fly away
Boy ya don't need nobody
just me and you
its the truth
Cuz you that know when
your not around me
oh its my pain

make it special
just fly away
Now that hear with me
you just should stay with me
picture how great it could be
yo love the joy you bring
it means the world to me
baby just fly with me
