

# Windmill

## Halloween

Time goes wherever you are, time is your guiding star  
That shines all through your life, makes you feel and move  
My dreams are out in the far, so are your's apart  
Of secret Fairy Tales, dripped on the wings of a mystery mill  
Windmill, windmill, keep on turning  
Show me the way, take me today  
Windmill, windmill, hearts are yearning  
Longing for love and a chance to be free  
Dont feel alone and depressed, someone will come at last  
To soothe your stumbling mind, to keep it away from the evil storm  
Windmill, windmill, keep on turning  
Show me the way, take me today  
Windmill, windmill, hearts are yearning  
Longing for love and a chance to be free  
Windmill, windmill, keep on turning  
Show me the way, take me today  
Windmill, windmill, hearts are yearning  
Longing for love and a chance to be free  
Time goes wherever you are
