Fifteen

Goldroom

It's been a long time, wondering why
the summer smells like sin and wonder
Feels like it
got inside of
a place and time
I dream about when
I get a walk in
I'll let us always
The summer sun I can't go back to
The touch of your skin
on my skin
Look away the sun's above us
Now you know we'll look back up in timeChorus:
But we were only fifteen,
fifteen we're floating through the slipstream
You're with me, we were only fifteen
fifteen just floating through the slipstreamIt's been a long time
wondering why
the summer smells like sin and wonder
Feels like it
got inside of
a place and time
I dream about when
I get a walk in
I'll let us always
The summer sun I can't go back to
The touch of your skin
on my skin
Look away the sun's above us
Now you know we'll look back up in timeChorus:
But we were only fifteen,
fifteen we're floating through the slipstream
You're with me, we were only fifteen
fifteen just floating through the slipstream
