

# Fifteen

## Goldroom

It's been a long time, wondering why  
the summer smells like sin and wonder  
Feels like it  
got inside of  
a place and time  
I dream about when  
I get a walk in  
I'll let us always  
The summer sun I can't go back to  
The touch of your skin  
on my skin  
Look away the sun's above us  
Now you know we'll look back up in timeChorus:  
But we were only fifteen,  
fifteen we're floating through the slipstream  
You're with me, we were only fifteen  
fifteen just floating through the slipstreamIt's been a long time  
wondering why  
the summer smells like sin and wonder  
Feels like it  
got inside of  
a place and time  
I dream about when  
I get a walk in  
I'll let us always  
The summer sun I can't go back to  
The touch of your skin  
on my skin  
Look away the sun's above us  
Now you know we'll look back up in timeChorus:  
But we were only fifteen,  
fifteen we're floating through the slipstream  
You're with me, we were only fifteen  
fifteen just floating through the slipstream
