

Ghost

Ballet School

Kissing as we cross
Kissing as we cross
Kissing as we cross again I saw your fate tonight
Your summer has no reason
I ask my body no questions
And it tells no lies I know it's been a while
But I can say without ego
That I never stopped loving you
I never even tried All your moves are real to me
You're the only one No one else can ever compare to me and you
I was her once with the blonde hair, who wanted you
And if you want, you don't stop running But we'll be kissing as we cross
Kissing as we cross
Kissing as we cross again Vast internal world
And the lonely wolf theory
If you're a weaker man then
Don't have daughters like me Sick of suffering fools
Youth is just bloodless
If you never dare, never dare
To break on through
