

Moving Away

[Anette Olzon](#)

Cold - so cold and alone
Aching worry and fear suddenly coming
Hold - don't wanna let go
Thinking of the years
Moments of joy and blue Moving away - trying to find a place
No more pain
Hoping to see the day
Come what may - no matter what they say
No more rain
Just moving away
As she walked out the room couldn't believe it
What was said and done
So full of dark and gloom Moving away - trying to find a place
No more pain
Hoping to see the day
Come what may - no matter what they say
No more rain
Just moving away Moving away - trying to find a place
No more pain
Hoping to see the day
Come what may - no matter what they say
No more rain
Just moving away
Moving away - trying to find a place
No more pain
Hoping to see the day
Come what may - no matter what they say
No more rain
Just moving away
Moving away
Just moving away
