I Need An Angel

Ruben Studdard

I've run out of answers, I've run out of time
And I'm so confused that I'm losing my mind
It's gonna take a miracle to help me this time
I'm traveling a road that has not one sign
Help me, have mercy for me
Set my soul free
And let the bell in my heart ring, oh
And this is my cry, hey, this is my plead you see
I need an angel, I'm callin' an angel
Send me an angel down, oh singing
I need an angel, callin' an angel
Send me an angel down
I'm carrying a load that's too heavy for me
I've nowhere to go so I'm down on my knees
I'm tryin' to see the forest, but there's this one tree
Can't understand why I'm sinking so deep
Help me, help me have mercy for me
Set my soul free please
And let the bell in my heart ring
Oh, this is my cry mmm, this is my plead
I need an angel, I'm callin' an angel
Send me an angel down
I need an angel, callin' an angel
Send me an angel down
Oh something inside of me, tellin' me the morning will come, yes it will
Oh sometimes it's hard to face the truth so we run
God if You care at all please don't let me fall by the wayside, oh no
Please be my guide, would You light my path?
Take me, shape me, mold me, change me, teach me, fill me, save me
I need an angel, I'm callin' an angel
Send me an angel down
I need an angel, I'm callin' an angel
Send me an angel down
I need an angel, I'm callin' an angel
Send me an angel down
I need an angel, I'm callin' an angel
Send me an angel down
I need an angel, callin' an angel
Send me an angel down
