Hopefully

Yp

I won't ask you where you're goin'
I won't ask you where you been
I know after a million times you get sick of all my lines
But I just wanna see you safe again
I know that just now I ain't been showin'
The kind of love you know that I can
So gimme a little while and you'll be knowin'
Your good lovin' baby is back on top again
Hopefully it occurs to me
That there's one thing I can't stand
That's the thought of one single day
Without your head in my hand
I always hoped you'd be showin'
And now you've shown as much as you can
But after each time I'm still glowin'
With a good lovin' smile that's your's until the end
Hopefully it occurs to me
That there's one thing I can't stand
That's the thought of one single day
Without your head in my hand
