Wildest Dreams

T. Swift

[Verse]Oh, Never! Hey Yeah Oh, Never! Hey Yeah
Out of an unknown place
Kind of like left field
You came in my life and help me heal
Just in the knick of time
When I lacked the will to keep on moving on.
You?ve been in my dreams Before now
I couldn?t figure out the reasons I kept asking God why
And now I?m receiving an abundance of love and I get it
But never could imagine it
[Chorus]Never in my wildest dreams
Did I think someone could care bout? me
Not just the way you love me
You know I?m emotional sometime
Not in, not in my wildest dreams
[Verse]Oh, Never! Yeah Oh, Never!
It?s hard to hold back tears
Whenever you hold me close
I think about the years

I spent saying this is all I want
Just wanted someone real to love me for me, me
Just Brandy
You seemed I had it all! That?s what they thought!
But I was peeling like paint on a wall
I had to cover up the hurt. (hurt, hurt)
Oooh I was told by many that they loved me but it won?t love like this
Never in my wildest dreams
Did I think someone could care bout? me
Not just the way you love me
You know I?m emotional
Not in, not in my wildest dreams
[Bridge]I give all I have ooh for exchange to have someone who loved me for me
Anything can be replaced boy but love
There aint no replacement it?s either is or it aint!
[Chorus]Never in my wildest dreams
Did I think someone could care bout? me
Not just the way you love me
You know I?m emotional sometime

Not in, not in my wildest dreams
