Share My World

Pinay

Don't you stand around and say
I made your life complete?
And how I make you feel each day
Whenever our lips meetYou say you really love me so
Don't hesitate to come
And share my world
Please, won't you share it?I gave you all the love I had
And gladly give you more
Love has found a way for usTo walk right through the door
An everlasting love was made for you and me
And it's reality, can't you see?You placed the seed of love in me
And made it grow each day
And now it blooms a fruit of love for youAnd if you really love me as
The way that I love you
Won't you please share my world?I want you, I need you
To share my world
Share my world
Life can be so beautifulI want you, I need you
To share my world
Share my world
Baby, baby won't you share my world?The sun puts on a smile for two
Every time we meet
And all the life that brought us through
It never will competeWith all the happiness we shared together
If you share my world
Please, won't you share my world?
Please, won't you share my world?I want you, I need you
To share my world
Share my world
Life can be so beautifulI want you, I need you
To share my world
Share my world
Baby, baby won't you share my world?
