

# This Time Around

Will Hoge

Looking out this hotel window  
watching all of the people  
5 O'Clock heading on back home  
My day is just beginning.  
I'm sitting here thinking  
I wish I wasn't drinking alone I'd rather be in our bed than stuck here with my pride  
Always worried about winning, but now I realize  
Sometimes its hard when you got it  
Its gone when you need it  
sometimes it just can't be foud  
I know its hard to believe it,  
but I can finally see it  
I'll be better to you this time around Pick up the phone cuz I miss you,  
but I'd rather be with you  
than waiting here pretinding I'm strong  
I can see that you were right  
Please let me come home and try  
I'm man enough to tell you I was wrong Sometimes it's hard when you got it,  
It's gone when you need it  
Sometimes it just can't be found  
I know it's hard to believe it,  
but I can finally see it  
I'll be better to you this time around I'd rather be in our bed than stuck here with my pride  
Always worried about winning, but now I realize  
Sometimes its hard when you got it  
Its gone when you need it  
sometimes it just can't be foud  
I know its hard to believe it,  
but I can finally see it  
I'll be better to you this time around  
I'll be better to you this time around
