

Not Forgotten You

[Lee Ann Womack](#)

I came home a little early last night
shed not a tear when I turned out the light
No I don't hurt like I used to
Didn't wait for the knock on my door
drawer in the room ain't empty anymore
So many got it tougher than I do
But I have not forgotten
I have not forgotten
I have not forgotten you
Time flies and you just know time to think about lettin' go
Times I even forget to be blue
Big feet to shuffle them sands
leave no trail and slip right through your hands
Done every little thing I know to do
But I have not forgotten
I have not forgotten
I have not forgotten you
And I said hail the western bound with it's black tail flying
Lay on the rails and leave me to dream of where your love was mine
Time flies and you just know time to think about lettin' go
Times I even forget to be blue
But I have not forgotten
I have not forgotten
I have not forgotten you
No I have not forgotten
I have not forgotten
I have not forgotten you
Hey I have not forgotten
I have not forgotten
I have not forgotten you
