

Skin After Skin

Soilwork

I count them all this must be number ten

Am I right is it over again?

my body shivers and shivers again

I nail their faces to the wall

Oh...those sweet pictures

do you realize what youave done?

pictures cause thatas what you are

there is no truth in what you say!

scars! cause that's what you create

there is no love left!

there is no truth in what you say! [Chorus(2x):]

Skin after skin

sin after sin

loose or win

skin after skin

sin after sin

my brain oh drowned in sin
