

Out of Pocket

Mayer Hawthorne

You're out of pocket now
You're real out of pocket right now You're out of pocket now
You're real out of pocket right now
Oh, honey
Comes from honey bees
Maple syrup comes from maple trees
But nothing in this world
None of these
Are as sweet as you, are as sweet as you But what I'm seeing
I can't believe my eyes
And what I'm hearing
I can't believe my ears
No, I never
In a million years
Thought you could ever take it here You're out of pocket now
You're real out of pocket right now (right now) You're out of pocket now
You're real out of pocket right now (right now, uh huh) Sophisticated
Like you ought to be
But slightly medicated when you want to be
The only thing I'm thankin'
When you're next to me
Is that I want you
Yeah I want you But what I'm seeing
I can't believe my eyes
And what I'm hearing
I can't believe my ears
No, I never
In a million years
Thought you could ever take it here You're out of pocket now
You're real out of pocket right now (right now) You're out of pocket now
You're real out of pocket right now (right now, uh huh) Dial it on back babe
Get yourself right
Dial it on back babe
Don't be too up tight Dial it on back babe
Get yourself right
Dial it on back babe
Don't be too up tight Dial it on back babe
Get yourself right
Dial it on back babe

Don't be too up tightDial it on back babe

Get yourself right

Dial it on back babe
