

# Satellite

## Starset

Darkening skies  
Coming this way  
Falling behind  
Into nothing But if you lead I'll follow  
a thousand miles away  
I will be your Apollo  
alone in outer space Satellite  
Shine on me tonight  
I will be your gravity  
I will stay and never leave  
My satellite  
Are you here tonight?  
Shine your light and set me free  
Take the darkness out of me  
Shine on me  
Shine on me  
Shine on me  
Blinded I wait  
The end is forming  
You are my fate  
Give me warning But if you lead I'll follow  
a thousand miles away  
I will be your Apollo  
alone in outer space Satellite  
Shine on me tonight  
I will be your gravity  
I will stay and never leave  
My satellite  
Are you here tonight?  
Shine your light and set me free  
Take the darkness out of me  
Shine on me  
Shine on me  
Shine on me  
Far across the emptiness I walk the night  
And search the silence in the dark you left behind  
I seek the stars above worlds to be the guides  
But they all pale against the light in your eyes  
And I won't suppose to know why you walked away

But can feel you pushing through beyond the space  
So send your energy to me and I'll push through  
Send your signal home and bring me back to you Satellite  
Shine on me tonight  
I will be your gravity  
I will stay and never leave  
My satellite  
Are you here tonight?  
Shine your light and set me free  
Take the darkness out of me  
Shine on me  
Shine on me  
Shine on me
