I'm Tired

Mel Tillis

Standin' on the corner of a busy street
I'm lookin' for your face in every crowd I see
Checking every honky tonk in this town
Tryin' to find the places that you hang aroundOh Lord, I'm tired, tired of living this a way
Now I've been waitin' on you baby, night and day
A wonderin' if your love will ever come my wayBut time's runnin' out and I'm a slowin' down
Tired of being just another hang around
Oh Lord I'm tired tired of living this a wayWell, there ain't no happiness in anything I do
I found myself so lonely when I'm not with you
What makes you just a kinda girl a guy will love
You've got so many others that you're thinking of
