

Five Man Army

Massive Attack

Daddy G

Trendy wendy you know what i mean
Hangin around with girl who's rolling up her jeans
She watches her street cred cause she's no dummy
Through rockin the microphone and she's calling me honey
Says i know what i want don't move with thugs
Well house parties hip hop and smoking drugs
And whoever's been the boss she's down with 'em
She's always on time cause the girl got rhythm
To avoid a complication i'll give some information
About a certain location under manifestation
'Cause when I host my show-a i avoid the girl called lola
Who's more pu-pu-public than the drink they call it coca cola
I'm just practice posing face is shaded in black
Is dominating as my color the massive attack
Right now i hit it kick it flow smooth hit middle wicket

Tricky

I take a small step now it's a giant stride
People say I'm loud why should I hide
Only had a small taste so what a waste
I quietly observe though it's not my space
Bottom ends heavy you know we're never even
People call me Tricky for particular reason
I've got you see and i've got to let you know
See we're rockin' in your area rock beneath your balcony
My baby just cares for me well that's funny
Her touch tickles especially on my tummy

Daddy G

Now who's got the microphone

Tricky

Now who's honey

Daddy G

A turbo turbo and charge with a charge
I be daddy g wild bunch crew at large
Don't call a officer just call me a sarge
Mashing up the country and also abroad
Plan to go to america when i get a visa card

Tricky

But gettin a visa card nowadays isn't hard

Daddy G

So keep your ears glued listen to every ???

Tokyo city's one place that we toured

Four to connect plus two makes a ???

Sharper than a wilkerson razor sword

3D

When I was a child I played subbuteo on

My table then i graduate to studio one

Cause D's my non de plume y'know but 3's my pseudynom

And around my neck you know i wear the sony budokan

Indigo blues you got me in my own shoes

The people dancing in the shade for what they make

They cat lose

Yes waxing lyrical but this time it's not satirical

It's kinda spherical so jam me in a ???

This is the miracle of the dubplate dub selection

Daddy G

So whether you're black white or half-caste in your complection

3D

Yes pull out your phono plug we'll tuck you in you phony

It's started by Marconi resumed by Sony

A summary of wireless history and only

Massive Attack can only explo-sio-nay

Oh-oh-ah, now, now

Get away with (you Caspers?) your guns now

We don't want it

(deep down, deep down)

Get away with (you Caspers?) your guns now

We don't like it

Eternal love eternal love

Money money money

Root of all evil

Money money money

Root of all evil
