

# Wildsurf

## Ash

Come on  
Yeah, come on, come on, while we still can  
Yeah, come on, come on, while we still can  
Burning in my head

Tonight, beneath the moon rays  
We stand in the doorway  
Looking towards other skies  
They are yours and mine for now  
Yeah, ride  
Ride the wild surf  
Until the dawn  
Is ushered in at your word  
Your heart must always burn

Burn like a star  
In the cold night  
Yeah, burn until the dawn light  
And make it to as new time  
Burning in my head  
Yeah, so come on  
Yeah, come on, while we still can  
Yeah, come on, while it still stands  
Burning in my head

Tonight, the sky above us  
Dark and wondrous  
How could you be unsure?  
It's all mine and yours now  
Yeah, ride  
Ride the wild surf  
Until the dawn  
Is ushered in at your word  
Your heart must always burn

Burn like a star  
In the cold night  
Yeah, burn until the dawn light  
And make it to as new time

Burning in my head

Yeah, we're gonna make it to the new times  
We're gonna make it from the old times  
We're gonna make it to the good times - that's for sure  
Ain't gonna let it slip away  
Ain't gonna let this chance fade  
Ain't gonna let it go in vain  
Ain't gonna let it slip away

Yeah, so come on  
Yeah, come on, while we still can  
Yeah, come on, while it still stands  
Burning in my head

In the cold night  
Yeah, burn until the dawn light  
And make it to a new time  
Burning in my head
