Live Your Life (long Version)

Stephanie

Takes a lot of passion
baby
takes a lot of action
babyTakes a lot of motion if you want.
It's almost like a mission
baby
to get a deep reaction
babyNo time for superstition if you want.'Cause if you know you're right you got to hold on tightIf you iust learn to fight and try with all your might.Baby
live your life - live your life -
Baby
live your life - live your life -
'Cause it's your fight - live your life - so baby
please!
Baby
live your life - live your life -
Baby
live your life - live your life -
'Cause it's your fight - live your life - so baby
please!You gotta have a vision
baby
of your whole dimension
babyKill off your illusions if you want.
You gotta choose youl poison
babyto stop your own destruction
babyThere's no magic motion for what you want.'Cause if you know you're right you got to hold on tightIf you iust learn to fight and try with all your might.
Baby
live your life - live your life - . . .Takes a lot of passion
baby
takes a lot of action
babyTakes a lot of motion if you want.Live your life - come baby - live your life - come baby -
Live your life - come baby
please!
