

Dangerous

Cascada

Don't know anything about you
So close, just a touch away
Your love hits me like no other They say I'm a true believer
I know that something's taking over now
I wanna run but I don't know how
You've just crossed my border now
Just to kiss away Gimme a break, I'm melting away
You're so dangerous
Or is it too late?
Gotta know what's on your mind I'm out of control 'cause you want it all
You're so dangerous
My biggest mistake, I'm blinded by your lies
Dangerous Dangerous Don't you push it to the limit
'Cause you know I'm hungry for your touch
No doubt, I wanna be your lover They say, just a pretender
I know something's taking over now
I wanna run but I don't know how
You've just crossed my border now
We're standing face to face Gimme a break, I'm melting away
You're so dangerous
Or is it too late?
Gotta know what's on your mind I'm out of control 'cause you want it all
You're so dangerous
My biggest mistake, I'm blinded by your lies
Dangerous, dangerous I'm out of control 'cause you want it all
You're so dangerous
My biggest mistake, I'm blinded by your lies
Dangerous
