

You Drove Me To It

Hell Is For Heroes

Somebody better give me a sting
Somebody better make me bleed
Fill this vacancy underneath my skin
'Cause I'm fighting with a thorn in my side
I never meant to fall this far
I have grown the soul of an enemy
But I hold an element of surprise
God knows it's gonna make you smile Breathe in immortality
I'm falling down one thousand feet So let's gather with the gods tonight
And play truant for the final time
I've been strung from hell, give me birth again
'Cause I never meant to climb this far
My guts are gonna drop like flies Breathing in immortality
I'm falling down one thousand feet
And oh my god one hundred floors
Flash faster than my eyes can meet Give me something sacred
So deep
So high
So long
So far
So good
So much pressure building They won't break me
They won't ground me
