

# Breathe Underwater

## Placebo

Here comes another fall from grace, I'm always falling on my face  
This attitude that I embrace with a love I'm trying to replace  
Try to kill this song 'cause the melody's all wrong  
And there's a beaver comin' on It's hard to reconcile what I've become  
With the wounded child hiding deep inside Breathe underwater, I'm comin' up for air  
I wanna see another dawn, comin' up for air  
Sick of the slaughter, I'm comin' up for air  
'Cause I've been floating here too long Take my ego for a ride 'cause there's nobody by my side  
It's getting hard to justify and it won't be long till I collide  
My weakness laid bare as people stop and stare  
But it's the last time I swear It's hard to reconcile what I've become  
With the wounded child hiding deep inside Breathe underwater, I'm comin' up for air  
I wanna see another dawn, comin' up for air  
Sick of the slaughter, I'm comin' up for air  
'Cause I've been floating here too long Stop breathing, stop breathing  
Stop breathing, stop breathing Breathe underwater, I'm comin' up for air  
I wanna see another dawn, comin' up for air  
Sick of the slaughter, I'm comin' up for air  
'Cause I've been floating here too long I'm coming, I'm coming, I'm coming  
Comin' up for air, comin' up for air, comin' up for air
