Next Go Round

O.C.M.S.

I wanna do it till the sun comes up
Till we're both so good and sweaty that we can't stand up
I wanna do it till we're both about to drop
As long as we got it together
Then we're never gonna stop
I wanna go until the neighbors all complain
Because they heard somebody screaming
And they think we're both in pain
I wanna go so long, your parents think you died
They're gonna call the cops, the CIA and then the FBI
Yeah, we're gonna love it when the lights go down
Hold on, here we go
Yeah, we're gonna go until our legs give out
Round and round we go
Yeah, we're gonna do it hanging upside down
Up and down we go
Yeah, we're getting ready for the next go round
Round and round we go
Shut the windows, lock the door, unplug the phone
For all intents and purposes, there ain't nobody home
Then we can do it till the batteries are gone
And borrow two from the TV remote to throw this thing back on
I wanna cover you with Jell-O in the tub
We can roll around for hours without ever coming up
I want you naked with your favorite heels on
Start John Deere across my ass and ride me up and down the lawn
Yeah, we're gonna love it when the lights go down
Hold on, here we go
Yeah, we're gonna go until our legs give out
Round and round we go
Yeah, we're gonna do it hanging upside down
Up and down we go
Yeah, we're getting ready for the next go round
Round and round we go
Yeah, we're gonna love it when the lights go down
Hold on, here we go
Yeah, we're gonna go until our legs give out
Round and round we go
Yeah, we're gonna do it hanging upside down

Up and down we go
Yeah, we're getting ready for the next go round
Round and round we go
