Light Up the Night

Recover

Spent countless days in outer space it makes me wonder
Are we so small, can't walk, we crawl, we hid from thunder
Follow the bright lights, they might change you, when you would fall
We are strong, we come together, let's live like we won't dieLight up the night, light up the night, the streets are calling
Our time is closer, light up the night, light up the night
The city's burning but the rain is comingWe blaze a trail around the world, I don't look back
There's something we can do that's better than living forever
Let's move like we need itLight up the night, light up the night, the streets are calling
Our time is closer, light up the night, light up the night
The city's burning but the rain is coming, change is comingLight up the night, light up the night, the streets are calling
Our time is closer, light up the night, light up the night
The city's burning but the rain is comingLight up the night, light up the night, the streets are calling
Our time is closer, light up the night, light up the night
The city's burning but the rain is coming
