

Something Å'Bout a Woman

Lady Antebellum

Well there's something 'bout a woman with my T-shirt on
Hair in her eyes and no make up on
Standing there smiling with my coffee cup
Yeah, there's something 'bout a woman that's easy to love Yeah, there's something 'bout a woman that's a clear
blue sky
Ain't find nothing better that'll get you high
You're all the colors of the sun at the end of the day
Yeah there's something 'bout a woman that'll make you feel that way She's like fire on a mountain
Like some kinda heaven that's pouring down on me
She's a child, she's a lady
She's got everything that I could ever need
Yeah there's something 'bout a woman and me Yeah there's something 'bout a woman when she gets dressed up
Slips her red dress on and her eyes light up
I love to watch her walking from across the room
Yeah there's something 'bout a woman and the way she moves me
She moves me, oh she moves me She's like fire on a mountain
Like some kinda heaven that's pouring down on me
She's a child, she's a lady
She's got everything that I could ever need
Yeah, there's something 'bout a woman and me She moves me, she moves me, oh she moves me
She's like fire on a mountain
Like some kinda heaven that's pouring down on me
She's a child, she's a lady
She's got everything that I could ever need
Yeah, there's something 'bout a woman and me Yeah, there's something 'bout a woman that makes me still
There's something 'bout a woman that always will
