

# Creature Feature

## Springtime Carnivore

You never ever make me beg  
I never have to ask  
Your love is the deepest well  
I'm always coming back You never leave me in the night  
You never leave me standing by  
No one in between us forever more We'll let trouble stay  
Five fences away  
Creature Feature save me in the end  
All those lonely days  
I spent locked away  
Creature Feature  
save me in the end You're the song I memorized when I was a kid  
It follows me everywhere  
Always hints of it  
La La La La La forever more We'll let trouble stay  
Five fences away  
Creature Feature save me in the end  
All those lonely days  
I spent locked away  
will you come back  
save me in the end Three story house...  
The reddest mouth...  
Now only time will let us go...
