

Night of the Vampire

Entombed

Tonight - is the night of the vampire
Tonight - is the night of the vampire If it's raining and you're running don't
Slip in mud cos... if you do, you'll
Slip in blood tonight
Is the night of the vampire
Tonight - is the night of the vampire
The moon may be full
The moon may be white
All i know is you will feel his bite tonight
Is the night of the vampire He comes from Transylvania (?)
On St Swithens day he was born
I stand in the darkness with no-one
Makes his by turns (?) Tonight - is the night of the vampire
Tonight - is the night of the vampire Never sleeps in the night
Comes out when the moon is bright - tonight Is the night of the vampire
