Know You

Audible Empire

I remember lonely
she wouldn`t hold me, wouldn`t touch me at all
i do
and I remember crying
she was the one that left me crying with no shoulder to use
and I remember lies
she was one of those types that would look me in my eyes and lie
and I was almost through until i ran into you
i`m just so glad i know you
i didn`t know love til i`m in love
i got my hands up,
what would i do if i didn`t know you
running out of hope til i`m in love
now i can stand up
what would i do if i didn`t know you
what would i do if i didn`t know you
what would i do if i didn`t know you
what would i do if i didn`t know you
if i didn`t know
I remember angry
she had some issues that we couldn`t work through
oh she reminded of jealous
always accusing me and now i bet she`s jealous of you
and I remember bye bye
she was one of them types that was in and out my life all the time
and i was almost through until i ran into you

i`m just so glad i know you
i didn`t know love til i`m in love
i got my hands up,
what would i do if i didn`t know you
running out of hope til i`m in love
now i can stand up
what would i do if i didn`t know you
what would i do if i didn`t know you
what would i do if i didn`t know you
what would i do if i didn`t know you
if i didn`t know you
i know you better than i know myself

thought i knew love but i was by myself
can`t call it love, no, now with no one else but you
i`m just so glad i know you
i didn`t know love til i`m in love
i got my hands up,
what would i do if i didn`t know you
running out of hope til i`m in love
now i can stand up
what would i do if i didn`t know you
what would i do if i didn`t know you
what would i do if i didn`t know you
what would i do if i didn`t know you
if i didn`t know you
