

Tug of War

[Chris Crocker](#)

We've been through the B.S.
Taking the bad hits
People and backstabbing
Our love pushed right past this, we already had it
But we let them come between us 'Cause when we separated knew nothing could replace it
Nothing was the same Until our love won the tug of war
Cause when you find the one, you need nothing more
Yeah our love won the tug of war
'Cause when push comes to shove, love can't be undone
Our love won, the tug of war
The tug of war We've picked up the pieces,
Went through the seasons
Not going back again
Outlasted the sadness
Now we're just glad and
Never let them come between us 'Cause when we separated knew nothing could replace it
Nothing was the same Until our love won the tug of war
'Cause when you find the one, you need nothing more
Yeah our love won the tug of war
'Cause when push comes to shove, love can't be undone
Until our love won the tug of war,
'Cause when you find the one, you need nothing more
Yeah our love won the tug of war
'Cause when push comes to shove, love can't be undone
Our love won, the tug of war Cause we were dumb enough, to let them come between us
Opened up our eyes knew nothing could defeat us
Knew all along we'd make it through the storm
'Cause we're the only thing that kept us warm And I know now I'll never doubt my heart
I know now I'll never doubt my heart, doubt my heart
I'll never doubt my heart Until our love won the tug of war
'Cause when you find the one, you need nothing more
Yeah our love won the tug of war
'Cause when push comes to shove, love can't be undone
Until our love won the tug of war,
'Cause when you find the one, you need nothing more
Yeah our love won the tug of war
'Cause when push comes to shove, love can't be undone
Our love won, the tug of war
